

PATCH NAVIGATOR

THE PIRATE CLUB FOR KIDS

MAJESTY MUSIC • THEME OF THE MONTH—STRENGTH • MAY 2017 • VOL 2-9

SMALL BUT MIGHTY!

Two of the strongest creatures God made are also some of the smallest—the leaf-cutter ant and the goliath beetle. Many large animals are strong, as we expect them to be. But can an elephant carry fifty times its own weight—in its teeth? No! The leaf-cutter ant can! If you were that strong, you could pick up a truck with your teeth! Now, if you think the leaf-cutter ant is strong, think about the Goliath beetle! It can lift over 850 times its body weight, which would be like your dad lifting 170,000 pounds! These amazing creatures show us the power and might of our Creator God. That same Creator God wants you to trust Him for the strength you need to live your life serving Him!

A LETTER FROM CAPTAIN PATCH

Ahoy, Mates!

How strong are you? Athletes train for years to compete in the Olympics. Weightlifters work hard to build muscles strong enough to lift hundreds of pounds. Some kids like to brag that they are stronger or faster than their friends. God gave us bodies that we should take care of and keep strong by eating the right foods and by exercising. But spiritual strength is even more important than physical strength. One of the first songs you probably sang as a little child says “I am weak, but He is strong.” As we realize that we need God’s strength to live the Christian life, He helps us to grow and learn through His Word. He makes us strong in the power of His might. (Ephesians 6:10).

Rejoicing in the Lord,

Patch the Pirate

In my weakness
now I come, Lord.
Be my strength and be my song.
In my need I seek your help, Lord.
I am weak, but You are strong!
